

Marc Duchesne
Vice-President, Corporate Security & Responsibility
BCE and Bell Canada

As Vice-President, Corporate Security & Responsibility, Marc leads a team responsible for managing all facets of Bell Canada's security, safety, environmental and sustainability programs. His key responsibilities include security risk governance, information and cyber security, personnel security, investigations, retail loss prevention, fraud management, business continuity and emergency management amongst other things. As part of his functions, Marc is accountable for periodic reporting of the company's security performance to BCE's Board of Directors and its committees.

He is an active member of the International Security Management Association (ISMA), the Canadian Security Telecommunications Advisory Council (CSTAC), the Telecom Security Association (TSA), and a member of the Advisory Committee for the Conference Board of Canada's Cyber Security Centre. Marc is also the Chairman of the Board of CCTX, a non for profit organization created to support the sharing and analytics of cyber threat information across sectors and with other sharing hubs to help protect Canadian businesses, governments and consumers, and strengthen Canada's economic prosperity.

Marc holds a Bachelor's degree in science from the University of Montreal and a Master degree in Applied Sciences from Polytechnique Montréal. Marc also holds a diploma from the International Research Centre on Management (CIREM), and he has completed the Director Education Program with the Institute of Corporate Directors and has achieved the ICD.D designation for his commitment to excellence in the boardroom.
